[REDACTED] Comment. The train on 16 February was confirmed several times. It carried units of the 63d Gds Tank Regt of the 10th Gds Tank Div which moved to field exercises west of Berlin, probably together with other units of the division. The units of the above mentioned regiments returned on 21 February as was previously reported [REDACTED]. As the field exercises are believed to have ended in the Fritzarbe-Rathenow area, it appears possible that the above mentioned units were loaded in Nennhausen. The shipment and receiving and dispatching station are confirmed by reports on transportation.

[REDACTED] Comment. The entrainment of units of the 20th Army AT Arty Brig (US) of the Third Shock Army to Schwerin-Goerries, on 25 February, presumably for practices with the 24th Gds Mtz Rifle Div, was reported previously.

25X1A

[REDACTED] It is believed that the loadings on 26 February mentioned in paragraph 3 of the present report are identical with those in the reference report. On 3 March, additional units of the 20th Army AT Arty Brig (US) were loaded and, [REDACTED] shipped to Haldensleben, possibly for combat firing in the southern section of the Letzling Heath.
